## ALUMINUM FRAME PAINTING COLOR

Aluminum is an environmental friendly, light and tough metal with an excellent strength to weight ratio and corrosion resistance, making it an ideal material for outdoor furniture. By powder coating we give to the aluminum an advanced method of applying protective, resistance to chemicals, corrosion, UV weathering and decorative coating. Choose your Bivaq furniture finish among all these painting colors:

## TABLE / BENCH TOP

Dats bench: top only available in white compact, dekton and iroko.

### HPL Compact top

HPL Compact is a high pressure structural laminate, built up from multiple layers of wood-based fibers impregnated with thermosetting resins and surface layers on both sides, having decorative colors or designs. Thicknesses from 10mm to 12mm it is particularly suited to use in high humidity, high impact areas. Compact is impressively strong and damage resistant and has remarkable structural stability weather and light protecting properties.

50- white

51- antracita

54- brown

### Dekton®

Dekton is made from a mixture of inorganic raw materials found in glass, porcelain tile and natural quartz. The process by which it is made combines technologies from these three industries, resulting in a proprietary new advancement called Particle Sintering Technology (PST). Some of the more prominent characteristics of Dekton are: Highly Resistant to (UV) Light, Suitable for Outdoor use, non-porous Surface, temperature Resistant, High Mechanical Resistance, color stability, low maintenance, non-combustibility, dimensional stability.
