

The CLUB collection, designed by Andrés Bluth for BIVAQ, is a sober and elegant concept of straight lines and sharp angles composed of different options of chair, lounge and hammock. Its simplicity makes this collection perfect for different atmospheres and designs. A refreshing and ethereal concept that blends with both classic and avant-garde projects.

CLUB consists of an extruded aluminum structure finished with polyester paint. The seats and backrests are made of Vinytex fabric, providing freshness and lightness to the designs and available in different colors. The table tops are produced in aluminum and HPL compact in a wide variety of tones. CLUB is a versatile, functional and contemporary proposal, stackable and easy to collect, perfect for versatile spaces for different purposes throughout the day.

club hammock

66 cm - 26"

128 cm - 50"

Frame

- Extruded aluminum finished with polyester powder coating.

Sling

- Vinytex fabric.

Vinytex fabric

- Synthetic fabric made of plastic coated polyester. UV resistance (class. 7/8).

Maintenance

Powder coating aluminium

- Clean the surface regularly with warm water and neutral soap. Use a non-abrasive sponge or cloth.
- Rinse with plenty of water immediately after cleaning and remove the water on the surface with a drying cloth to help you avoid water stains.

Vinytex fabric

- It is recommended to clean it with a water humid sponge or cloth and a little bit of neutral soap, diluted in large quantity of water.
- If this doesn't work, use a soft brush instead of a cloth to rub the stain.
- Be careful and do not use hard chemicals products that can affect the fibers.
